EDUCATION

June 2002 to April 2024	School Cluny Convent High School Bengaluru
July 2014 to May 2016	Pre University Sri Chaitanya Pre University college Bengaluru
August 2016 to August 2021	Under Graduation BGS School of Architecture and Planning Bengaluru Introduced to formal education in architectural design, model making, and presentation skills.
October 2021	edX Global Housing design Certified course Introduction to global housing and evolution of typologies.
July 2023 to July 2025	Post Graduation CEPT University Ahmedabad Specialized in architectural tectonics, focusing on the design, integration, and representation of structural systems, with attention to materials, construction, and site-specific contingencies.

WORK EXPERIENCE

February 2021 - May 2021	Kukke Architects Bengaluru Internship / Professional Training Assisted in the production of construction drawings, including architectural plans, electrical layouts, 3D visualizations, renderings, schedules, and interior elevations. Gained valuable experience by attending construction site visits, client meetings, and consultations with various agencies, enhancing my understanding of the design and building process.
June 2021 - June 2023	Kukke Architects Bengaluru Junior Architect Managed small to medium-scale residential, commercial, metal, and furniture installation projects, building strong relationships and coordinating design decisions with consultants, engineers, and contractors. Utilized AutoCAD and SketchUp across various project phases, from design development to construction documentation. Conceptualized and visualized designs through physical models, focusing on materiality, metalwork, and spatial volumes through experimentation. Additionally, took on roles in marketing, branding, and financial management, while also assisting with employee orientation, broadening my experience and contributions to the firm.
July 2024 - November 2024	CEPT University Teaching Assistant Played a key role in organizing calligraphy classes and guiding students in understanding the technical aspects of the art. Taught foundational calligraphy skills, introducing students to various font styles and languages. Developed a course manual to support and enhance the learning experience.

PROFICIENCY

May 2024 - July 2024	Summer school CEPT University Publication design for the book Tales of Devalsari.
softwares	AutoCad, SketchUp, Adobe suite (Ps, Ild, Ai), Enscape, Google office, Laser cutter, 3D printer, CNC mill.
languages	English, Kannada, Hindi, Telugu

WORKSHOPS

CEPT University	Timber workshop, Metal workshop, FabLab Gained hands-on experience working with various machinery and materials to create products. Operated laser cutters and 3D printers, experimenting with different materials to bring designs to life.
October 2019	The Energy and Research Institute - TERI Energy analysis of designed and built forms.
