About Me

As an architecture graduate, I am passionate about design. During my undergraduate studies, I was drawn to the intersection of art, design and architecture. I found myself drawn to the way that design can transform the way we experience the built environment. With a strong interest in manufacturing and design thinking, I am constantly seeking new challenges to enhance my skills and expand my knowledge in these areas. As a highly motivated individual, I am passionate about creating innovative solutions and bringing them to life sustainably.
