

KARAN KOTHARI
D.O.B- 12/12/2000

ABOUT

I'm Karan Kothari, joined CEPT University for masters in Conservation and Regeneration in 2023 and currently in my 3rd Semester. During my studies here, I have worked on multiple individual and group projects and these projects have allowed me to become a great team player and also have hands-on model-making experience and developed software skills, these all things taught me how to function well in a fast-paced and deadline-driven environment.

The following is the compilation of all kinds of projects which I have worked on during my academic studies of Bachelors and Masters.
