## Product/Furniture Designer

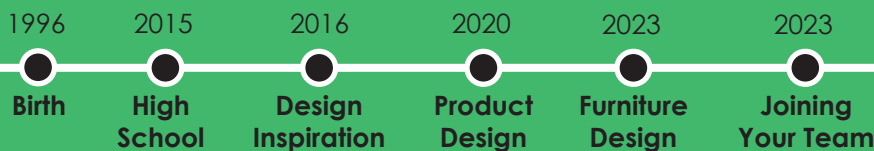

### About Me :

I am a design enthusiast, I believe in living life at full. And so, I have a driven responsibility to explore more to deliver and design most apt solutions which can connect all these aspects of the design realm. I've always designed with abstract concepts, ideologies and forms to not only experiment but also with an intention to widen my prospects.

### I Think :

My passion for design is much more than sitting at a computer making ugly things look beautiful, design is to inspire and broaden with my work.
