

POOJA TOSHNIWAL

Urban Manager, Architect

ABOUT ME

An architect, currently pursuing a course in Urban Management with a vision to augment the quality of life of citizens by working towards a sustainable environment. I am looking for a firm that offers exposure to the different management aspects in the cities across India as well as the globe.

I am an energetic and motivated individual who is able to work well in a team environment and also am keen on taking initiatives. I am a hard working, honest individual and a good timekeeper. I show keen interest to learn new skills. My aim is to work consistently, creatively and productively as possible.

WORK EXPERIENCE

GVC Developers, Nanded (April 2018 - June 2018)

Spiro Designs, Pune (May 2017 - October 2017)

- Making working drawings
- Design – residential projects, interior design
- Developing 3D model for project
- Supervision of on-going project

ACADEMIC PROJECTS

Semester 3: Service Operation and Management AMTS-BRTS(On going)

The studio focuses on methods of process analysis, service concept and management of operations and services. The project of Ahmedabad Municipal Transport System service operations gives an opportunity to study the services and operation in context of city transport services. Understanding the current fare structure and proposing integrated fare models and analysis based on survey. Theatre formats for Educations and Interpretation as elective gave a chance in understanding human behavior, effects of surrounding on a person, different ways of communication.

Semester 2: Urban Governance and Management Studio

The studio focuses on studying local level management practices like Solid Waste Management, Public health, Parking Management, Planning process of different ward of a City. Understanding the process of implementing a town planning scheme and getting permissions for development in city. Proposal to make the permission transparent and easy for applicants as well as department. Business Model for urban services helped in understanding the basics of business canvas, it's elements and components.

Semester 1: Facilities Management- Gokuldham Township

The studio exercise developed an understanding of utilities services and it's management. For the purpose of our study, we were given a project which pans across 216 acres to understand its management, impact on the environment and the civic infrastructure and its legal implications. We worked on management of a township to enhance the built environment of the residents. Transforming Cities: Making City Planning and Urban Design Work in India as elective helped in understanding different planning projects, their development, implementation across phases of project.
