India

As an architect, my mission is to shape society through purposeful design. Specializing in housing, I create spaces that integrate diverse cultures and aspirations, fostering a profound sense of belonging. My focus is on crafting homes that elevate human experiences, nurturing well-being and societal change at the grassroots level. With thoughtful architecture, I aim to leave an enduring mark, transforming living spaces into inspiring havens reflecting the essence of communities.

Education

Completed
(Year)

CEPT University, Ahmedabad M.Arch , Housing Design	2024
MSAP, Manipal B.Arch , Architecture	2020
Kendriya Vidyalaya, Hebbal 12th , Science	2014

Soft Skills

Creativity	Tech. Adaptability
Communication	Visual Literacy
Collaboration	Cultural Sensitivity
Attention to Detail	Empathy
Problem-Solving	Leadership
Biophilic Sensibility	Presentation

Work Experience

Completed
(Year)

Srujan Research and Planning Foundation , Pune
Junior Architect 2022

Project Variety: Worked on diverse projects like housing and industrial developments, showcasing versatility in design across different sectors.

Client and Marketing Interaction: Managed client relationships, comprehending their needs, and collaborated with the marketing team to align services accordingly.

Design Team Contribution: Actively participated in the design team, contributing creative ideas and aiding in the development of architectural plans.

On-Site Supervision: Conducted regular site visits to ensure construction progress aligned with design intentions and met specifications.

Contractor Collaboration: Interacted with contractors, facilitating effective communication between construction teams and design professionals for seamless project execution.

Srujan Research and Planning Foundation , Pune
Intern 2020

Small-Scale Projects: Actively involved in small-scale projects, contributing ideas and efforts to their development and execution.

Construction Drawings: Played a pivotal role in creating detailed construction drawings using design software and principles to convey precise project specifications.

Design Assistance: Provided crucial support in the design phase by collaborating with the team, offering insights, and refining architectural plans.
